LINGUISTIC RESILIENCE : THE EXAMPLE OF THE FRENCH- SPANISH BORDER

15 Novembre 2023

INTRODUCTION

- Nations are often defined as a geographical space with limits, however it is not a fortress.
- Waves of immigration allowed culture and languages to export.
- Languages are thus borderless entities.
- Notion of resilience in the XXth century in both Spain and France and overcoming totalitarian regimes.

OUTLINE

M2 FRONT

To what extent regional languages can be considered as transcendent entities regarding both the limits of space and time as well as the challenges brought by these two constraints ?

I - First half of the comparative study : the Basque language

1. Résilience in the Basque Country : the process of the XXth century.
2. Resilience in France during a permanent crisis.
3. Cooperation between two distinct contexts merging into one.

II - Second half of the comparative study : the Catalan language

1. Résilience in Catalonia : a drastic destiny opposed to Catalonia.
2. Resilience in France following the events of the XXth century.
3. The tools of cooperations between two distinct country and one people.

I - BASQUE LANGUAGE

M2 FRONT

Before Franco

- The Basque Country failed to become autonomous in 1932 at the beginning of the Second Republic.
- Basque was therefore not considered an official language.

During Franco

- Franco unified the country under one flag and one language : Castilian.
- « If we want to be worthy of this salvation, and honor the one who has saved us, all Spaniards must do three things: Think like Franco, feel like Franco and speak like Franco, who, speaking in the national language, has imposed his victory. »

After Franco

- Constitution of 1978 allowed the Basque identity to take form.

I - BASQUE LANGUAGE

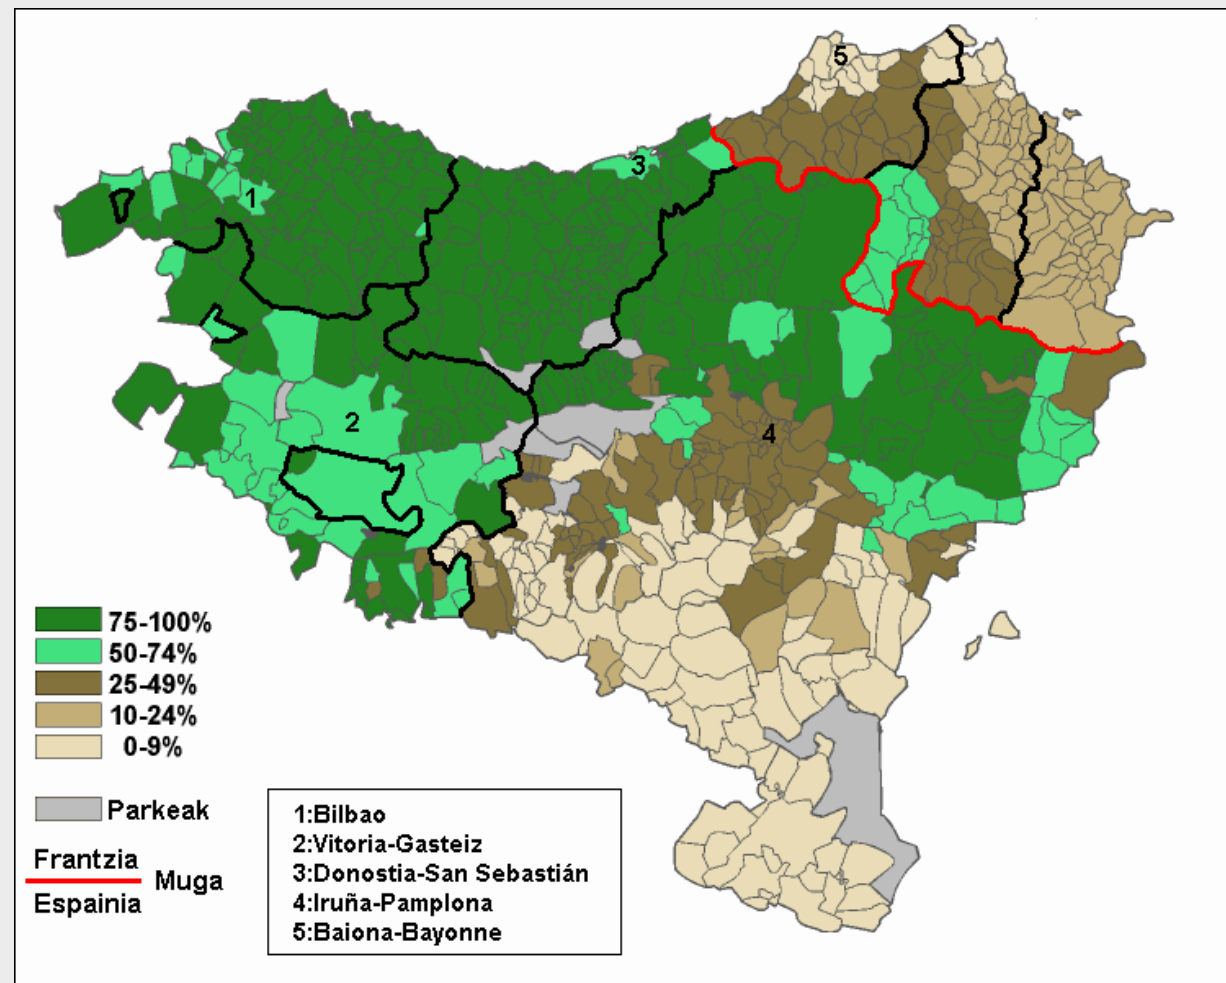

M2 FRONT

Resilience across the border : the Basque community in France

- The Republic institutions and the hegemony of the French language
- A late institutional acknowledgement (1951)
- Resilience via violence
- Civil resilience: an important associative networks
- Indirect language resilience: non-language based identity resilience

I - BASQUE LANGUAGE

M2 FRONT

Cooperation across the border : the Basque community in France

- A cultural development at the beginning of the 20th century
- An unbalanced institutional cooperation
- Associative cooperation

II - CATALAN LANGUAGE

Before Franco

- Catalonia has always had more political privileges than the Basque Country, allowing the region to thrive more.
- Fifth article of the 1932 constitution : “ « The catalan language shall be the official language of Catalonia, however, the Castilian language will solely be applied in exchanges with the central government of the Republic. »

During Franco

- Regulations and decrees were enacted that banished the Catalan language in 1937 (with the abolition of the Statute and in subsequent regulations)
- Linguistic resistance : Nova Cançó movement.

After Franco

- New reform of Catalonia in 1978.
- Stricter policies than before due to the dictatorship and the sentiment of betrayal.
- Will to emancipate from Spain.

II - CATALAN LANGUAGE

	Household	Colleagues Students	Colleagues Work	Small Businesses	Large Stores	Administration Municipal
Andorra	37,6%	63%	43,7%	53;5%	17,3%	86,2%
Catalunya Nord	1,4%	1,3%	1,8%	0,8%	0,4%	0,3%
Alghero	7,7%		4,8%			
Catalunya Sud	32,1%	44,6%	34,6%	39,5%	34,3%	50,5%
Illes Balears	38,4%	31,1%	25,2%	38,1%	27,1%	40,6%
Franja d'Arago	50,6%	27,4%	28,9%	45,9%	19,9%	38,8%

- French law and the lack of recognition
- Cultural resilience, the perpetuation of familial legacy
- Local and regional initiative (schools, associations)
- Resilience against external pressures (ex: Molac law 2021)

Resilience across the border : the Catalan community in France

II - CATALAN LANGUAGE

Cooperation across the border : the Catalan community in France

M2 FRONT

- The Euroregion and Eurodistrict, the role of a common identity and language
- Political affiliation between the various Catalan parties, difference with limits regarding political objectives
- Historical and political differences, limitations of the linguistic unity

CONCLUSION

- The notion of « regional » in « regional languages » can be questioned.
- Regional languages not only represent a symbol of local pride or local identity but rather a symbol of cooperation.
